---

### **Parent/Student/Employee LCAP Survey - We Want to Hear from You!**

Annually, the District conducts a survey to gather information from a variety of educational partners regarding the PVPUSD learning environment that contributes to the production of high academic achievement levels for all students.

This LCAP survey is anonymous, and the collective results will be shared during Local Control Accountability Plan (LCAP) meetings to guide local priority development, actions, expenditures, and services related to the conditions of learning, achievement outcomes, safety, and educational partner engagement. We value each respondent, and it is important that we get a representative sample from our community.

We have separated the surveys into categories which include Parent/Guardian, Employees (certificated and classified), Elementary Students (grades 3-5), and Secondary Students (grades 6-12). Please click on the link applicable to you to complete the survey(s) and/or to assist your student in completing the survey. Your responses will help guide the funding priorities for the Palos Verdes Peninsula School District. Surveys will close on January 23, 2023.

### **College & Career Center Updates**

#### **OUTSIDE OPPORTUNITIES**

**PVP CHAMBER OF COMMERCE YOUNG ENTREPRENEURS ACADEMY** is continuing the innovative **Young Entrepreneurs Academy** with programming beginning in February 2023. The PVP Chamber of Commerce will host an informational meeting on **Thursday, January 12th, at lunchtime in the College and Career Center, Room 318.**

This is an innovative and exciting after school program that transforms local middle and high school students into real, confident entrepreneurs. Through this program, students in grades 7 - 12 ***work closely with local business leaders to cultivate and research business ideas, write business plans, pitch to a panel of investors, obtain funding, develop their brand, and launch their business or social movement.*** By learning entrepreneurial skills before they exit high school, the students develop not only the business and social skills so often attributed to entrepreneurship, but the mindset that will help them achieve success with, and bring innovation to, all their future endeavors.
