Unified School District

We would like to remind our school communities and families/guardians to assess common signs and symptoms of seasonal illnesses such as COVID-19 and Hand Foot Mouth Disease (HFMD). Respiratory Illnesses, Flu, COVID-19 transmission, and HFMD peak in the summer and fall but can be seen at any time of the year. For the well-being of all our school community, please keep your student at home if your student is too sick to come to school. Please review Guidance for Symptoms and When to Stay Home on the district website.

Guidance for Schools: Common Signs & Symptoms

This document is intended to support decision-making for schools and childcare centers when an individual child is displaying signs and symptoms of illness.

Below are suggestions for when to keep your child home when they are not feeling well. Contact a health care provider if your child needs medical care. A doctor's note is generally not required to return to school or child care. For more information, please visit [the CDPH guidance page](#).

This document:

- **does not** replace the advice of a licensed healthcare provider, nor does it revise guidance related to an individual child's known medical condition or existing IEP, Section 504 plan, or IFSP plan.
- **is not** a diagnostic tool. Related symptoms may inform exclusion decisions, but school staff should not attempt to diagnose.
- **does not** replace or revise applicable laws or other requirements.
- **does not** address specific disease outbreaks, when recommendations and public health requirements for exclusion may be more strict.
- **is limited to** consideration of symptoms as evidence of infection, and does not include considerations for other causes of symptoms such as allergies, toxin exposure, and child abuse or neglect.
- **should be used** within the context of an individual student's health and behavior history.

Symptom	When should my child stay home and when can they return?
Overall, not feeling well	STAY HOME IF any new illness or symptom prevents a child from participating meaningfully in routine activities. Please note that a child with multiple symptoms is more likely to be contagious. Recommendations for all applicable symptoms should be considered.
Fever	STAY HOME IF a fever is 100.4°F (38°C) or higher. RETURN WHEN fever went away over the night and is gone in the morning without the use of medications such as Tylenol®, Advil®, or Motrin® (acetaminophen or ibuprofen). If fever is accompanied by additional symptoms, follow all symptom-specific guidelines.
Respiratory Virus Symptoms (cough, stuffy / runny nose, sneeze)	OK TO ATTEND WITH MILD SYMPTOMS. Children should test for COVID-19 before attending school, wear a mask for 10 days from symptom onset, and follow COVID-19 guidance . STAY HOME IF symptoms are accompanied by fever or if child has significant nasal discharge (ie. interfering with their ability to participate in school and/or can't be contained without contaminating other children or staff). SEEK MEDICAL ATTENTION for severe symptoms, including a bad cough, difficulty breathing or trouble catching their breath, or wheezing when not controlled by medication (like albuterol). RETURN WHEN child has been fever-free for 24 hours without the use of fever reducing medication and other symptoms are improving.
