**Freshmen - Junior students/guardians welcome to join a special Zoom presentation introducing:**

**Direct Admissions – Colleges that apply to students!**

Direct admissions is an evolving practice where colleges proactively offer admission to students, often before they've even applied. This approach, once considered unusual, has expanded significantly in recent years, with numerous state university systems and private colleges adopting it!

The Common App has also launched a direct admissions program, with 116 partner institutions for the 2024-25 application cycle, up from 71 the previous year.

This growth suggests that direct admissions is becoming an increasingly significant part of the college admissions landscape. It's clear that this approach is changing the college admissions landscape, especially when it comes to investigating great "likely" and target schools that students might consider while building their college list.

The zoom link for the Direct Admissions presentation can be accessed **[HERE](#)**.

# E-Vehicle Safety

**Please follow these safety guidelines when operating an e-vehicle (including electric bikes, scooters, and skateboards) to protect yourself and others!**

## WEAR A HELMET!

California law requires anyone under 18 to wear a properly fitted and fastened helmet at all times while riding an e-vehicle.

## FOLLOW TRAFFIC LAWS

E-vehicle riders must follow all traffic-related laws, including stopping at traffic lights. Be aware of road hazards and pedestrians while riding.

## FOLLOW THE SPEED LIMIT

The speed limit for e-bikes is 20 MPH, and the speed limit for e-scooters is 15 MPH. Be sure to abide by these speed limits at all times.

## REQUIREMENTS FOR E-BIKES

In order to qualify as an e-bike, your e-vehicle must have fully operable pedals. If pedals are not present, it is considered a motorcycle, and riders must be 16 years of age or older with an M1 license. E-bikes must also have a sticker advertising of class one, two, or three; maximum speed; and watts, permanently affixed by the manufacturer.

## PASSENGERS AND ATTACHMENTS

Carrying a passenger is **NOT** permitted. In addition, attaching the e-vehicle to yourself or another vehicle while on the road is forbidden.

## E-SCOOTERS

In order to ride an e-scooter, you must have a driver's license or instruction permit. An e-scooter does not include motorcycles, motor-driven cycles, or motorized bicycles and mopeds.

## PARKING YOUR E-VEHICLE

If you park your e-vehicle on a sidewalk, it cannot impede pedestrian traffic and should be positioned to allow for a clear path. Parking on a PVPUSD campus requires a permit. While on campus, you must walk your e-vehicle to the designated parking zone.

## CARRYING ITEMS

It is **illegal** to carry any package or item that prevents you from keeping at least one hand on the handlebars while riding an e-vehicle.

## MOTOR POWER LIMIT

E-vehicles must have a motor power of **less than 750 watts**. A permit is required for any e-vehicle exceeding this limit.

## OPERATING UNDER THE INFLUENCE

Operating an e-vehicle while under the influence of alcohol or drugs is **illegal** and can result in a DUI charge.

## YOUR E-BIKE CAN BE IMPOUNDED!

Under the law, your e-vehicle can be **impounded** for any of the following reasons:

- Riding without a license
- DUI
- Traffic obstruction or safety hazard
- Abandonment

# What Classifies as an E-Bike?

## CALIFORNIA E-BIKE CLASSIFICATION CHART

California classifies e-bikes into three categories based on speed and throttle. Please review the chart below to ensure your child is adhering to the correct requirements based on their e-bike classification.

| Class   | Max Speed | Throttle Allowed? | Pedal Assist? | Age Requirement | Helmet Required?        |
|---------|-----------|-------------------|---------------|-----------------|-------------------------|
| Class 1 | 20 mph    | No                | Yes           | No minimum age  | Under 18                |
| Class 2 | 20 mph    | Yes               | Yes           | No minimum age  | Under 18                |
| Class 3 | 28 mph    | No                | Yes           | 16+ years old   | Required for ALL riders |

## WHAT IS NOT AN E-BIKE?

Street illegal electric motorcycles—including Surrons, Talarías, E-Ryde Pros and many other brands—are NOT e-bikes.

**Too Powerful:** E-bikes are legally limited to 750 watts. Electric motorcycles can have 6,000+ watts, making them as powerful as gas motorcycles.

**Speed:** E-bikes have speed limits of 20-28 mph, while electric motorcycles can hit 50+ mph, making them illegal for bike paths, bike lanes, and most public roads.

**No Pedals:** E-bikes must have functional pedals. Electric motorcycles run entirely on a throttle, like a dirt bike. However, electric motorcycles that exceed speed and power limits are not classified as e-bikes, even if they have pedals.

**License & Registration Required:** Because they exceed e-bike regulations, electric motorcycles require motorcycle registration, a license, and insurance to be legal on the street.

**Supervise:** It's possible that your child has heard of ways to modify the settings of their e-bike to exceed the intended maximum speed. We suggest occasionally testing the bike to ensure it has not been tampered with.

## WHY DOES IT MATTER?

- ☒ Riding an electric motorcycle on the street without registration is **illegal** and can result in tickets, fines, and bike impoundment.
- ☒ Electric motorcycles are **NOT allowed in bike lanes or on trails**.
- ☒ Electric motorcycles require **motorcycle-level safety gear, including a DOT-approved helmet**. Crashes at these speeds can be severe.

If you thought your child was riding an e-bike, but they're actually on an electric motorcycle, it's time to review the laws and safety concerns. These are **NOT** the same as e-bikes, and they come with bigger risks and legal responsibilities.
